15"- 32"	**Load** 0-9kgs/0-19.8lbs	**VESA** 75x75, 100x100
Tilt +90°/-85°	**Swivel** 180°	**Rotate** 360°

Installation **INSTRUCTIONS**

Warning

⚠ Prior to the installation of this product, the installation instruction must be read and completely understood. Failure to do so may result in personal injury, property damage or voiding of factory warranty.

⚠ Do not install on a structure that is prone to vibration, movement or chance of impact. Reinforce the structure as required before installation. Don't use the product on particle board.

⚠ The desk clamp can support a maximum thickness of 8.5 cm. Confirm the desk edge before installation.

⚠ Pay attention to the weight capacity of the mount. Exceeding the limitation can result in function unworkable or even serious personal injury and property damage.

⚠ Never operate the mount if parts are missing or damaged. Contact your local service center for warranty service.

B

S=4mm

Desktop

Insert the monitor along with the VESA plate to the arm and lock it.

6

S=5mm
B

Press down the arm to a horizontal position

⚠ Be sure to keep the arm in horizontal position during adjustment. Or else, it would be difficult to adjust the mount.

S=5mm

1 turn ≈ 1 lbs ≈ 0.4kg

NOTE: Turn clockwise to reduce tension for lighter monitors and counter-clockwise to increase tension for heavier monitors.
Desktop

Use a 5mm hex wrench to adjust the height tension of the gas spring arm, to keep different weight of monitors still at any position.

4

For Flat Screen Monitors

Flush surface installation: Install 4 screws through faceplate to monitor via mounting holes.
M4x12

A

TOP OF Monitor

NOTE: Hand tighten screws to avoid over tightening.

OR

For Recessed/Curved Back Monitor

Recessed surface installation: Put 4 spacers between faceplate and monitor. Install 4 screws through faceplate, spacers to monitor via mounting holes.
