

PRODUCT OVERVIEW

Product Diagram

Dimensions: 230.00 x 493.00 x 445.30 mm (W x H x D)

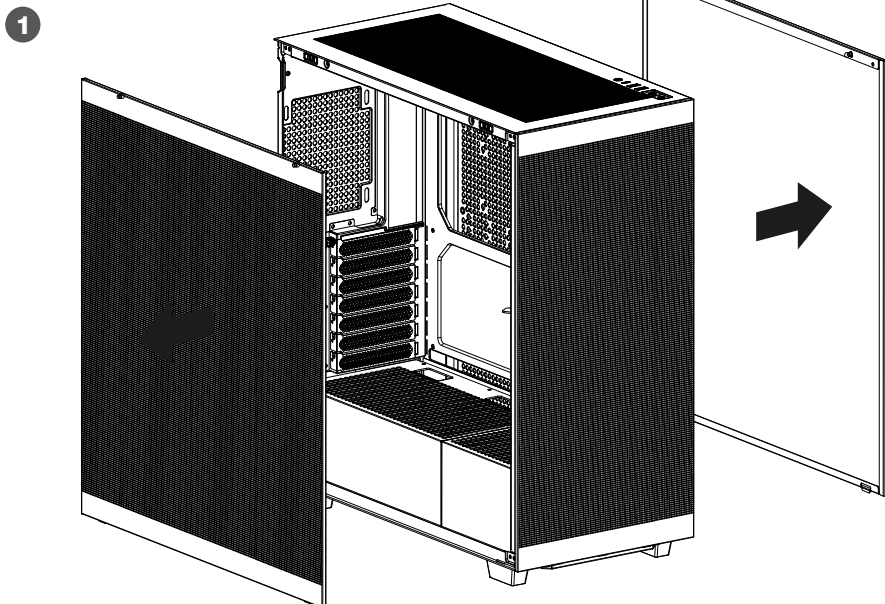

INSTALLATION GUIDE

Please remove all packaging materials before proceeding to disassembly/assembly.

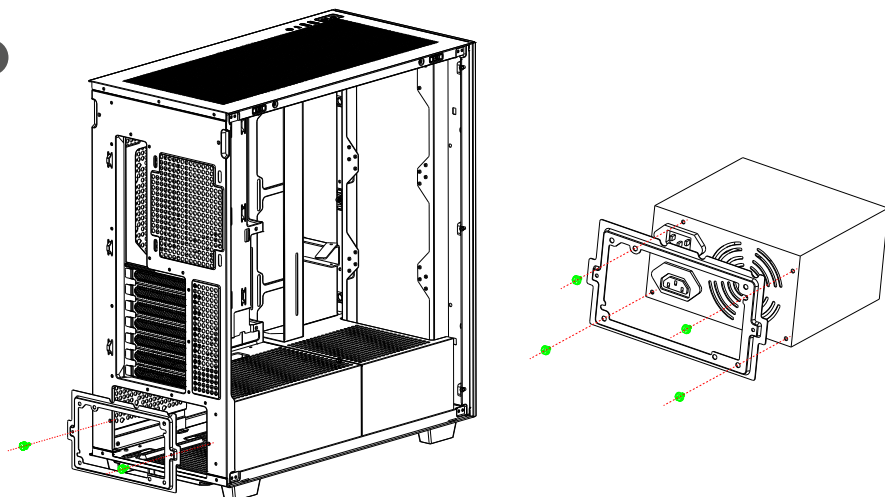

1. Open the Side Panel

Remove the side panels first.

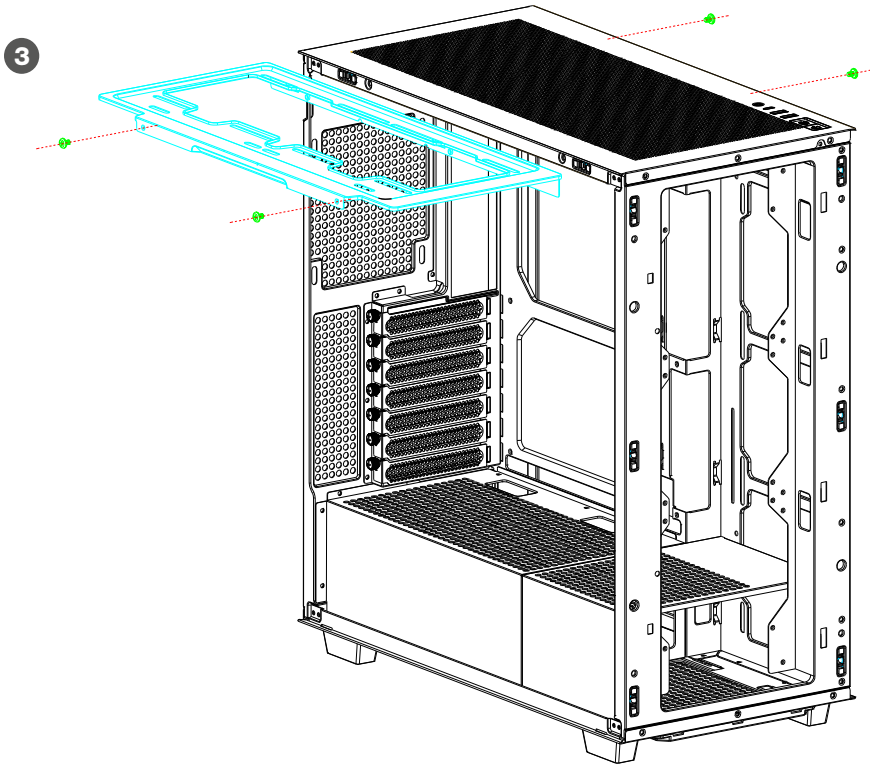

2. Install Power Supply

Please make sure that the holes of power supply aim at case cooling vents when installing power supply (Figure 2).

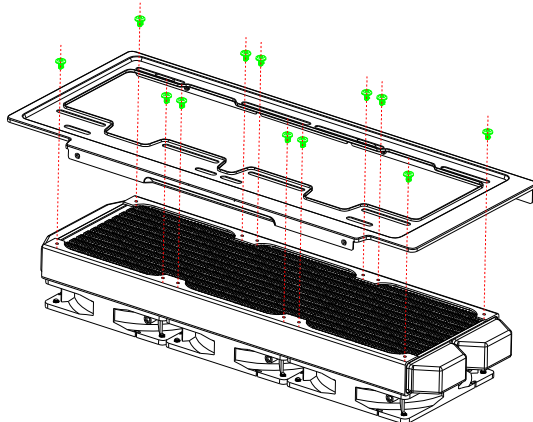

3. Install Upper Plate Water Cooling

Installing water cooling radiator on the top panel.
Remove the top panel.

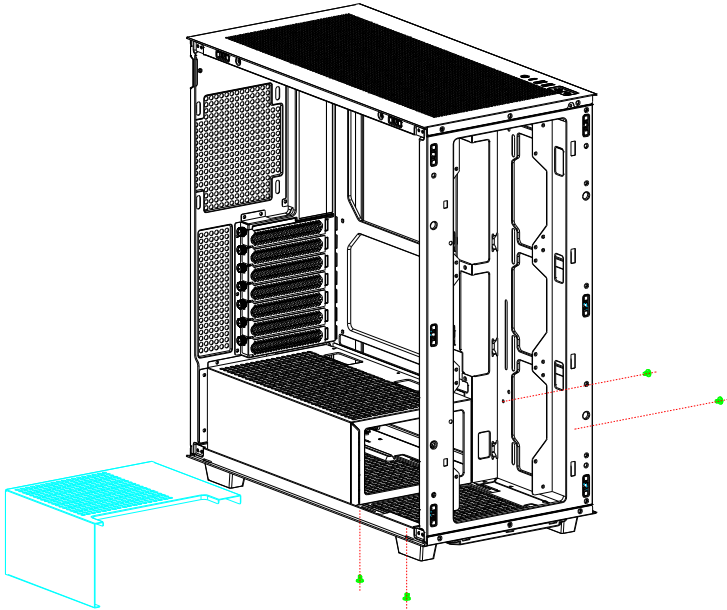

Secure the water cooling radiator with screws and put the panel back.

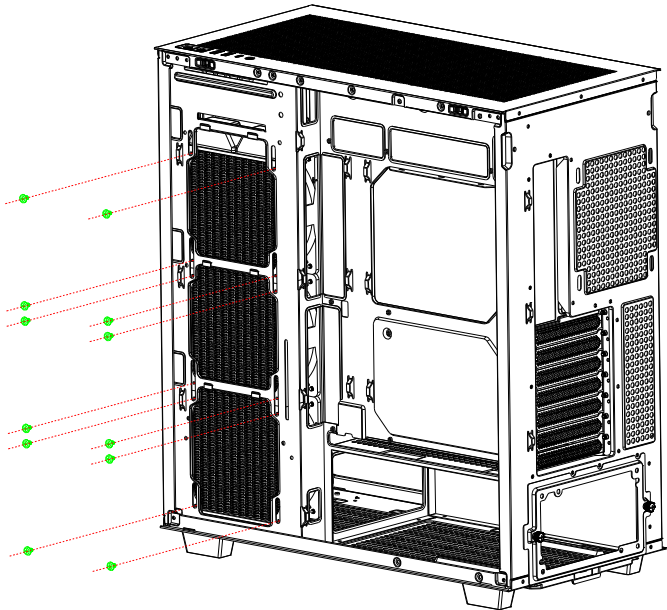

4. Install Water Cooling in front of the Board

Place the water-cooled radiator on the front panel to ensure the correct direction of coolant flow.

4

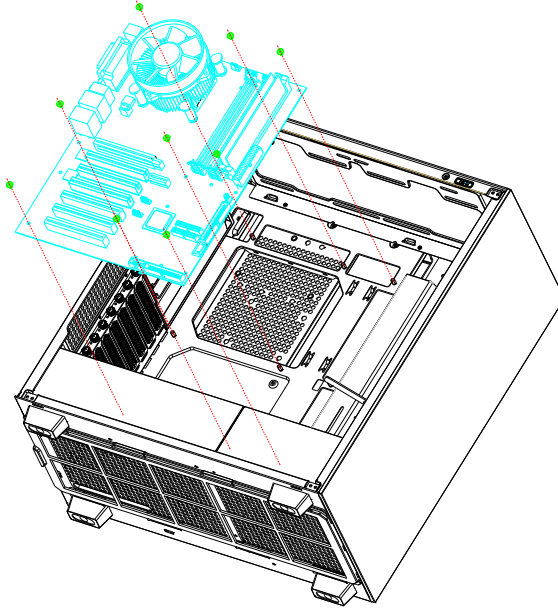

Secure the radiator with screws to ensure it is stable and does not shake.

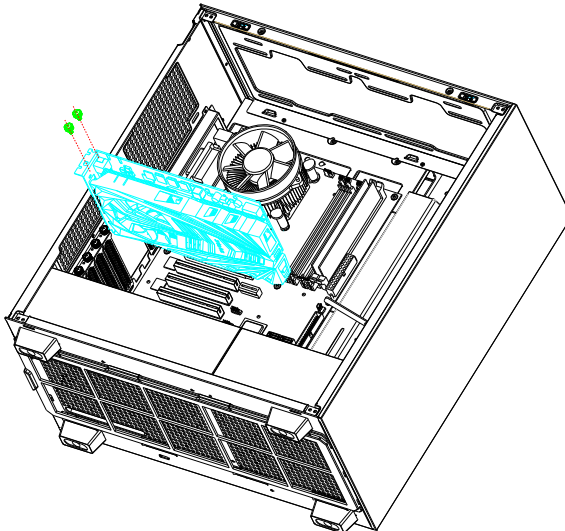

5. Install Motherboard and VGA Card

Make sure that the motherboard aims at the copper cylinder and fix motherboard with screw.

5

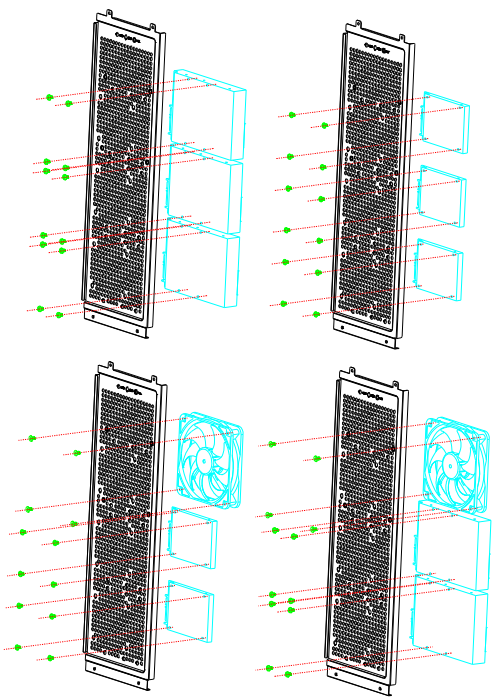

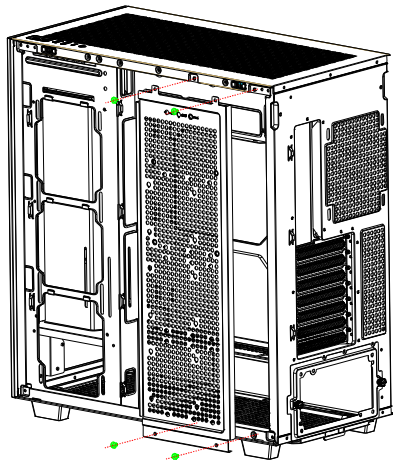

Make sure the VGA card aims at the motherboard slot and then fix VGA card and case with Screw.

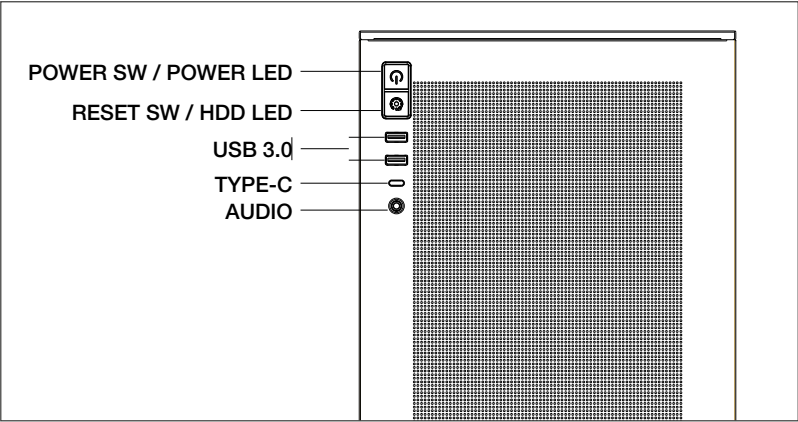

6. Lock HDD Rack

Unscrew hard disk enclosure and install HDD with screws.
