Congratulations on your new PC! Accessing the I/O panel and connecting your peripherals to the MEK5080A9700XBT5/BLT5 is easy! Follow along this guide to learn how:

I/O Port

(Type-C x 1)
(USB 3.2 (Gen 2)
(HD Audio,mic)
(Rest button)
(Power light, Hdd light)
(Power button)
(USB 3.0 x 4)

STEP 1

ONE-TOUCH RELEASE MECHANISM.

STEP 2

Remove the back panel by pulling the top notch for easier access to the I/O ports.

STEP 3

Unscrew the two thumb screws and lift the top fan bracket latch to access the I/O ports.
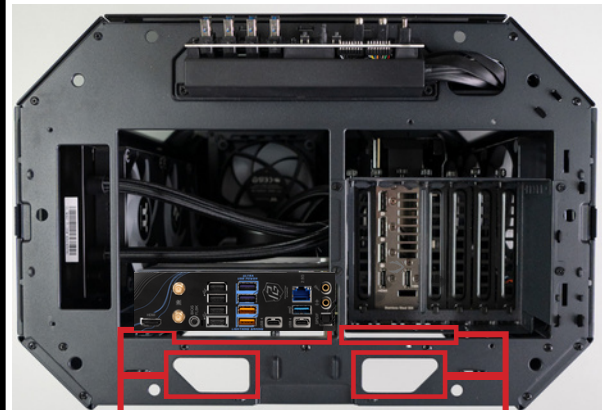

FRONT

BACK

Disconnect any fan cables as needed to fully remove the top fan bracket.

STEP 4

Pass the cables through the designated side cutouts.
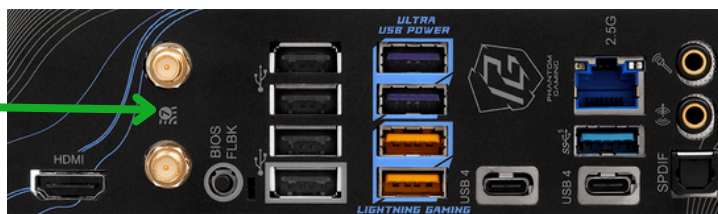

FRONT

BACK

All other peripherals
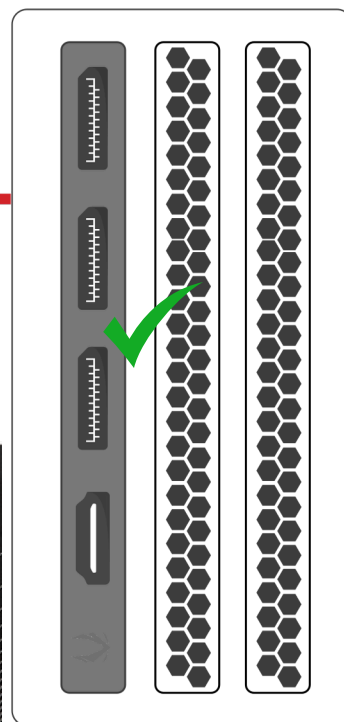

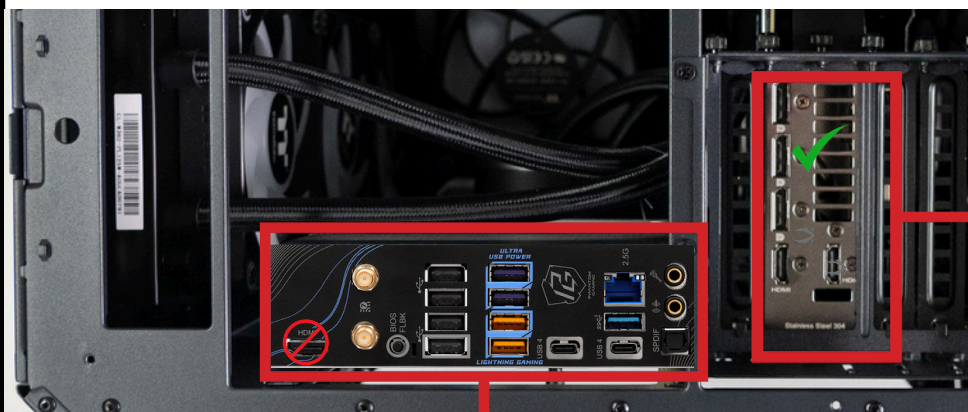

Monitors and other displays

STEP 4.5

Screw the WiFi antennas onto the connectors on the motherboard.

WiFi Antennas ports →

STEP 5

Plug your devices into their matching ports on the motherboard's back panel.

** Images for reference only. Port layouts may vary based on the included components.

For monitors and displays, connect directly to the
appropriate port(s) on the graphics card/GPU.
Do NOT plug your monitor into the graphics port(s) on your
motherboard, as it is disabled when a
graphics card is installed in your system.
