INSTALLATION GUIDE

Please remove all packaging materials before proceeding to disassembly/assembly.

1. Open the Side Panel

Remove the side panels first.

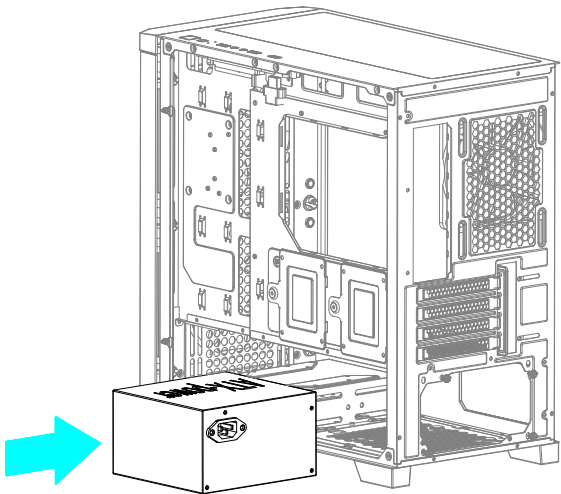

1

2. Install Power Supply

Please make sure that the holes of power supply aim at case cooling vents when installing power supply (Figure 2).

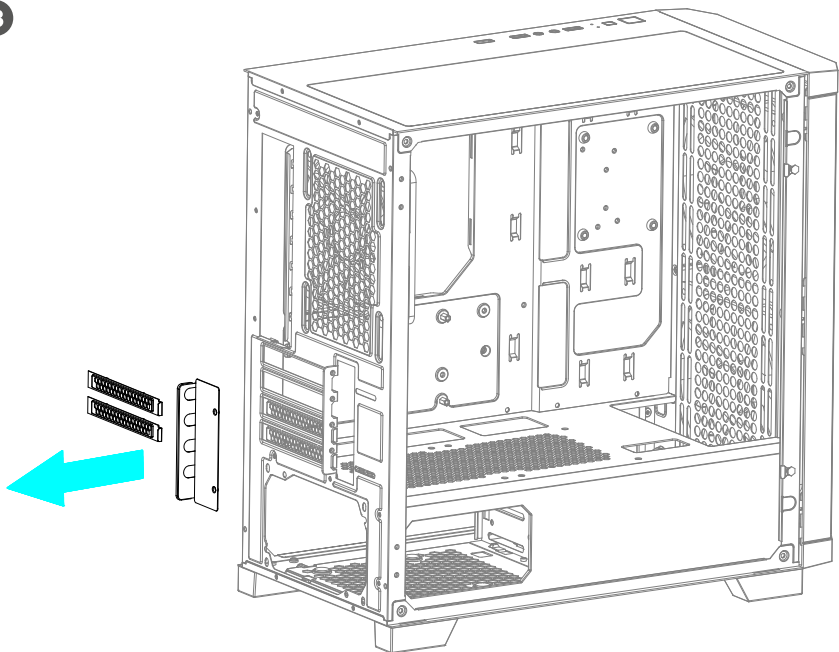

2

3. Install Add-on Card

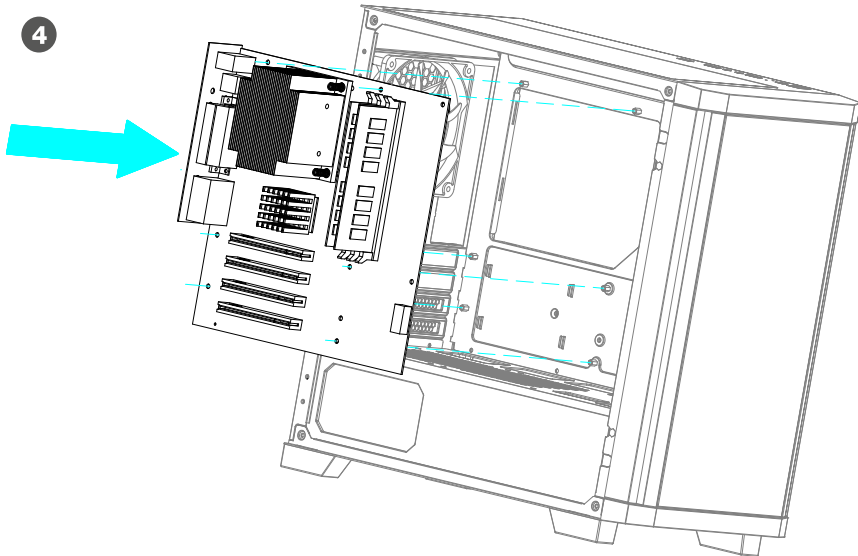

Loosen the thumb screw to release the PCIe slot door and bend to remove the slot covers. Install the add-on card and secure with screws (Figure 3).

3

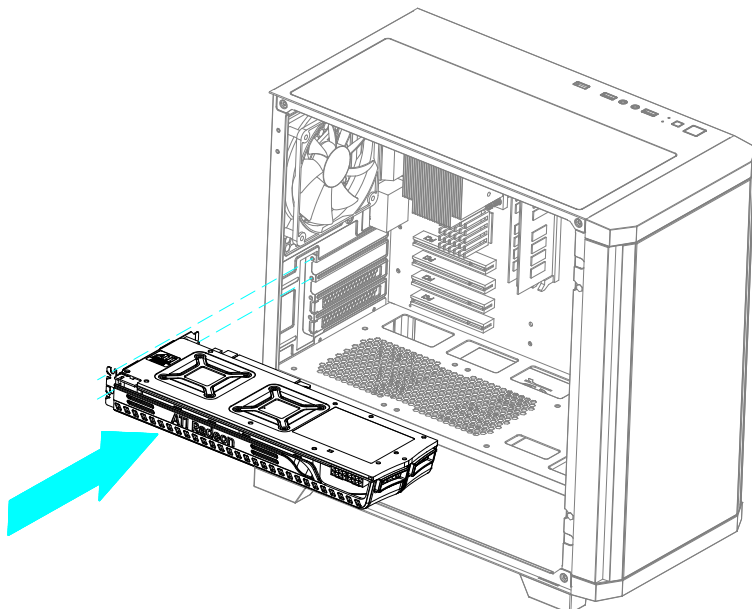

4. Install Motherboard

Make sure that the motherboard aims at the copper cylinder and fix motherboard with screws (Figure 4).

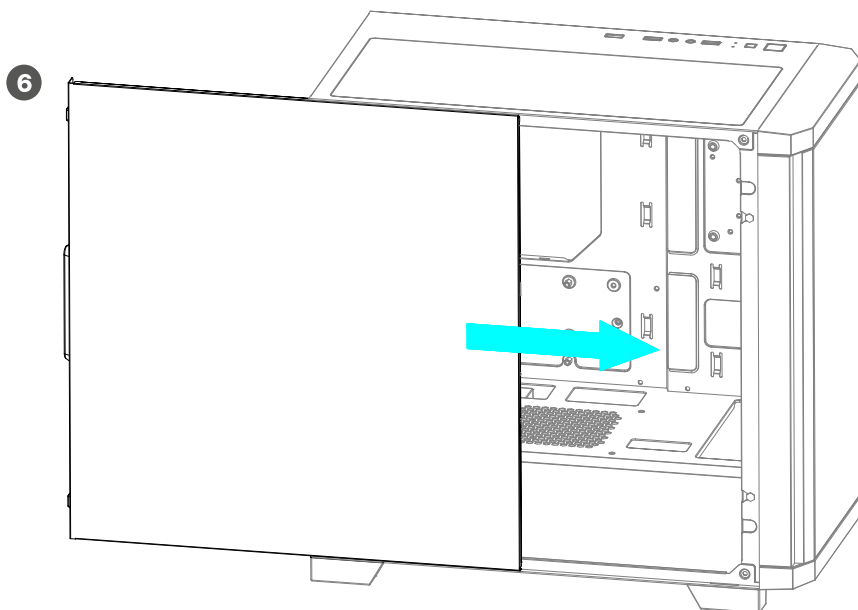

5. Install VGA Card

make sure the VGA card aims at the motherboard slot and then fix VGA card with screws.

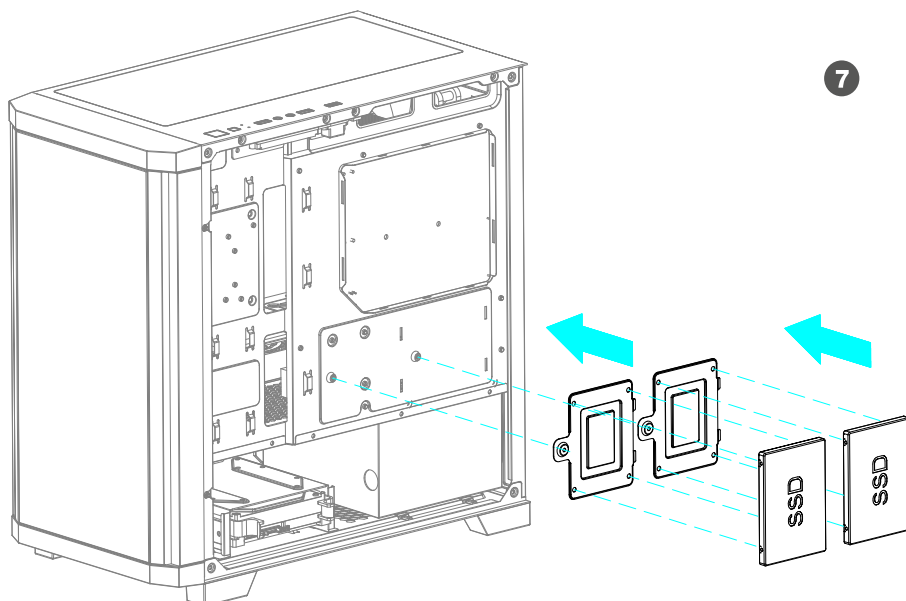

6. Install the Left Side Panel

Install the left side panel back into the case.

7. Lock SSD Rack

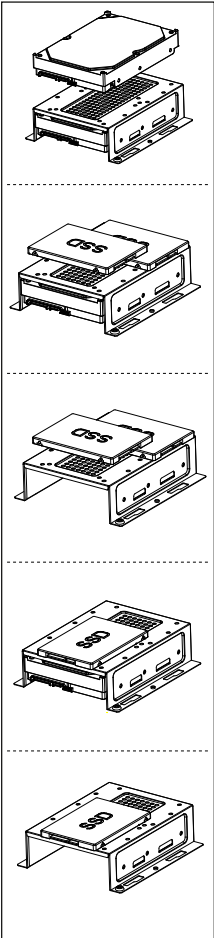

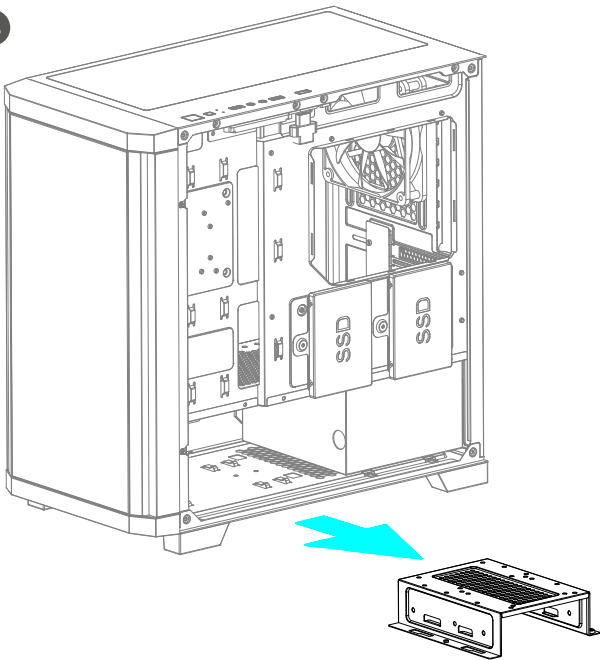

Unscrew hard disk enclosure and install SSD with screws.

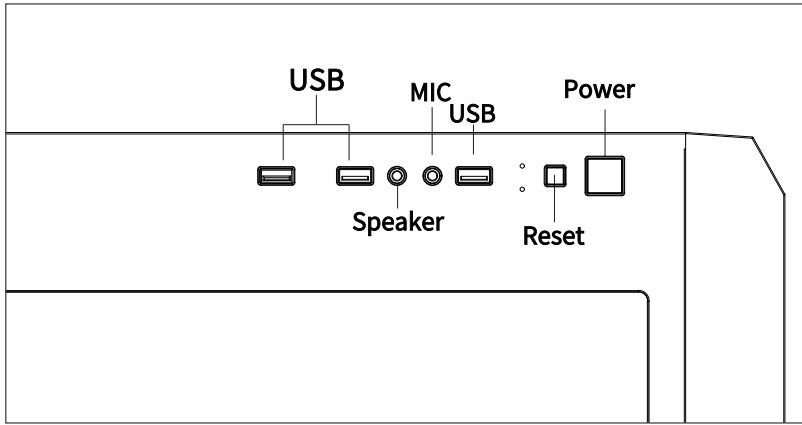

8. Lock HDD/SSD Rack

Unscrew hard disk enclosure and install HDD/SSD with screws.
